Council Member

September 2015
Dr. K.K. Cheung

Dear Fellows, Members and Associate Members,

2015 is the Golden Jubilee of our Association. For the sake of this special occasion, the theme of our 3 whole-day Annual Congress this year is not subspecialty-based but contributed equally by all subspecialties around "Returned to Roots; Pursue our future". Local representative figures as well as international giants in Orthopaedic Surgery will participate in leading us through a journey from our past to the future by means of lectures and discussions. Moreover, please don’t miss the Congress Banquet because if not for the Golden Jubilee, it will be hard to find another setting for Orthopaedic Surgeons of different generations to come together! Please register quickly as the early bird registration will be closed on 15th September!

It has been 10 years since the establishment of our first Subspecialty Chapter. As each Chapter expands, it is the perfect time to review and reconsider the relationship between the mother Association and the different Chapters. As I pointed out in the Newsletter in July 2013, the development of individual Chapters not only is vital to the growth of the Association but also to the benefit of individual members, provided that adequate and effective communication exists between Chapters and the Association. The Council is now working on establishing better mechanisms for stronger collaborations and links with different Chapters such that all of us will receive the dividend.

Please support our Association by enrolling in the corresponding Chapter(s) that you would like to develop further and deeper!
